In his "Gamer to Gym Rat" series, Deltia's Gaming promotes healthy living by showcasing his personal fitness journey to his supporters.

Long-time video game enthusiast Deltia of Deltia's Gaming has made a historic return to YouTube and *The Elder Scrolls Online: Tamriel Unlimited* (ESO). In [a surprise video](#) released on February 17, Deltia assured fans of his return to the internet scene.

Prior to his return to the Internet realm, Deltia taught *The Elder Scrolls Online: Tamriel Unlimited* gaming community the benefits of each species and classes in the popular MMORPG. At a time when the customization process was new and confusing for some, his videos on the character system gained over 1,070,000 views and educated players on the best combinations to match their preferred playstyles.

*"I want to set some expectations on what you can expect from me in 2021," Deltia said in his returning YouTube video. "I will primarily play Elder's Scrolls Online. I will primarily do guides for [ESO]. Will I play other games? Absolutely. But the brand Deltia's Gaming was born from playing the Elder Scrolls Online."*

Deltia has also created "builds" or custom character load-outs that millions of players have seen and replicated in their own games. Although MMORPG game scapes change frequently, Deltia plans to create beneficial advice for his followers once again.

In terms of *The Elder Scrolls Online*, Deltia has big plans to cover the game as it continues to succeed.

*"The game has a proven track record and it's only getting better,"* Deltia mentions in his return video. 2/20/2021 Youtube.
